

# FENTANYL SAFETY IN THE WORKPLACE

**FACING FENTANYL**

**AWARENESS. PREPAREDNESS. PROTECTION.**

## WHY IT MATTERS

Illicit fentanyl and other dangerous drugs are in our communities—and in our workplaces.

Every employee deserves a safe environment.

## REAL RISKS. REAL IMPACT.

Employees may encounter illicit drugs during their work. Exposure can be accidental and potentially deadly. Being informed saves lives.

## BE PREPARED

Knowing what to look for, how to respond, and how to protect yourself and others makes all the difference.

Prepared teams keep workplaces safe.

## A CULTURE OF SAFETY

When we train, support, and look out for one another, we build a stronger, healthier workplace for everyone.

Together, we can save lives.

## HOW WE CAN HELP

# Optimizing Safety is Our Priority

### TRAINING TOPICS:

Understanding today's dangerous drugs – Fentanyl and other emerging substances
